Presentation

The study cycle in Dramatic Arts - Training of Actors at the Lusófona University of Porto represents the implementation of the training of actors and the teaching of the performing arts at the university level in the city of Porto, with evident significance in terms of offer throughout the northern region of the country. Focusing on the technical and intellectual training of the actor, and expressing a renewing intention with meaning on the national scene, the cycle of studies makes the connection between the knowledge founded on the current practice of the performing arts and academic education, providing the basis for the historical and theoretical exploration of theater and other types of performance. It counts for that, in its faculty, with a set of creators and pedagogues involved in the current creative practice, of recognized excellence, not only in the area of *implantation* of the course, but at national level. The study plan responds to the need to introduce the student to the real environment of professional practice, providing in all semesters work guided by reputable professionals and aimed at the presentation of exercises and final shows.
