Presentation

The Master's in Advanced Human Resource Management develops a set of knowledge, skills, and abilities that address and anticipate the needs of the 21st-century markets. By balancing academic and applied aspects of HRM, it emphasizes the integration between advanced management practices and the most current scientific knowledge. With a strong focus on applied research and knowledge transfer, this Master's program promotes innovation, sustainability, and digital transformation. Its distinctive academic model is based on active methodologies that foster a personalized experience of high scientific and pedagogical value: collaborative learning, gamification, Problem/Project Based Learning.
